

State Budget Implementation in October 2018

Brief Report

In the early 10 months of 2018, Cambodia's macroeconomic conditions remain stable supported by stable exchange rate and manageable inflation rate. At the same time, budget implementation has shown steady progress in the transformation of public financial management reform through efforts to improve, enhance efficiency and effectiveness of revenue mobilization and spending performance, in particular focusing on the priority targets of basic economic and social development.

According to National Treasury preliminary data, in October 2018, Central government has achieved total domestic revenue of KHR 1,548.17 billion or increased by 10.50% percent compared to October 2017, supported by indirect tax, and international trade tax. Overall, as of October 2018, Central government has achieved total domestic revenue of KHR 15,656.30 billion, accounted for 88.8 percent of 2018 budget law or rose by 14.00 percent compared to the same period in 2017, in which indirect tax revenue increased by 22.60 percent, international trade tax revenue rose by 19.40 percent and non-tax revenue rose by 5.20 percent, respectively. For total expenditure, Central government has reached KHR 14,817.49 billion, accounted for 64.90 percent of the 2018 budget law, in which total current expenditure has achieved KHR 10,939.15 billion, accounted for 71.12 percent of the budget law or grew by 12.70 percent compared to 2017.

In all, as of October 2018, the current budget balance has achieved surplus of KHR 4,586.86 billion and overall budget balance has achieved surplus of KHR 838.81 billion. By observation, the performance of State budget implementation is better due to the adjustment of some of the spending procedures and related regulatory frameworks and the participatory implementation of precautionary spirit.
