# **State Budget Implementation in September 2020**

## **Brief Report**

According to the Budget Law 2020, Cambodia's economic growth during the year is projected at 6.5%. However, due to the rapid spread of the COVID-19 disease, the growth is projected to grow negatively at an unprecedented rate of 1.9%, which could affect the performance of the state budget, both in terms of revenue and expenditure.

In September 2020, according to the National Treasury preliminary data, the budgetary central government achieved the total domestic revenue of KHR 1,465.66 billion or in equivalent to 6.08 percent against the 2020 budget law, signifying the significant decrease by 31.26 percent compared to the same month in 2019. Of the total domestic revenue in September, the tax revenue accounted for KHR 1,388.53 billion and non-tax revenue for KHR 66.15 billion. The total domestic revenue as of the third quarter of 2020 has been achieved by KHR 15,323.44 billion or in equivalent to 63.60 percent against the budget law, marking the decrease by 14.01 percent compared to the same period last year. The contributions to the decline consist of a 13.95 percent decrease in current revenue, of which 10.00 percent from tax revenue and 3.95 percent from non-tax revenue.

In September 2020, the budgetary central government, on the other hand, executed the total expenditures of KHR 1,819.94 billion or equal to 6.07 percent against the 2020 budget law, slightly decreased by 0.80 percent compared to the same month last year. As of September 2020, the total expenditures have been achieved KHR 17,227.70 billion or equal to 57.44 percent against the 2020 budget law, marking the increase by 12.43 percent compared to the same period last year. The accumulated current expenditure execution has reached KHR 11,669.11 billion, increased by 7.89 percent compared to the same period last year.

Based on this preliminary data, in conclusion, the implementation of the accumulated domestic revenue collection has decreased by 14.01 percent while the expenditure execution considerably increased by 12.43 percent compared to the same period last year, as a result, the overall budget balance has the deficit of KHR 1,904.26 billion. Overall, in the context of COVID-19, Cambodia still maintains good financial management compared to some other countries, in which there are enough resources to release the budget for the salaries of civil servants across the country, continue the program on providing cash support to the poor and vulnerable people affected by COVID-19, and also support the public investment programs.
